UNITED STATES

The United States Navy
announces a
NOTICE OF AVAILABILITY
For The Second Five-Year Review Report
NAVAL WEAPONS STATION (NWS) EARLE
COLTS NECK, NEW JERSEY

The United States Navy (Navy) announces that the Second Five-Year Review at NWS Earle, conducted in accordance with the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), has been completed. Nine United States Environmental Protection Agency (EPA) designated operable units (OUs), which include 15 Navy Installation Restoration Program (IRP) sites at NWS Earle, were included in this review. Long-term operations and maintenance (O&M) programs including groundwater monitoring are still required to provide continual protection of human health and the environment for Sites 4 and 5 (OU 1), Site 19 (OU 2), Site 13 (OU 5), and Sites 3 and 10 (OU 6), where remedial actions have been completed. No further actions, other than five-year reviews, are required at Sites 20, 23, and 27 (OU 4). Long-Term Monitoring (LTM) and Land Use Controls (LUCs) are required for Site 26 (OU 3 and OU 7), Site 1 (OU B), and Sites 6 and 17 (OU 9) pending concurrence of proposed groundwater Classification Exception Area (CEA) designations. LUCs and LTM will be implemented at Site 15 (OU 9) without the need for a CEA.

This Five-Year Review shows that the Navy is meeting or exceeding the requirements of each Record of Decision (ROD) for the OUs at NWS Earle. Long-term O&M activities and monitoring are being conducted to maintain the protectiveness of the various remedies.

The Second Five-Year Review Report is available for public review at:

Monmouth Community Library - Eastern
Branch
Route 35

Shrewsbury, New Jersey

For more information, please call the NWS Earle Public Affairs Officer, Mr. Patrick Fisher, at (732) 866-2171. The Navy anticipates conducting the next Five-Year Review in 2013.
