Subject: RE: SJCA Site 21 Proposed Plan - EPA Legal Comment Resolution
Date: Monday, April 25, 2011 2:09:00 PM

Team,

My only remaining comment is to emphasize the correct dates for the comment period and public meeting need to be inserted in various locations in the Proposed Plan.

I confirm agreement with the RTCs posted on April 20 at 3:09 and agree with making the grammatical change recommended by EPA legal April 21.

Thank you Betsy for making some great suggestions to the wording in the proposed plan and to Janna and her team for responding so thoroughly and quickly.

Walt

Team, the updated response to comments file and marked up PP are attached for your review. Path forward:

- . EPA will review the revised responses to confirm EPA's concerns have been met by 4/22
- . NAVFAC will review the RTCs to confirm agreement by COB 4/25. If there are no changes, CH2M HILL will issue a "non-draft" set of RTCs for the project file.
- . CH2M HILL will begin to incorporate the changes now, and complete a clean version for the public review by COB 4/26
- . VDEQ will provide comments or confirm there are no comments by 4/25 COB
- . NOTE: to get the public notice in the paper next weekend, we need to issue it by 4/27 @ noon. Therefore, need all team concurrence by next Wednesday @ noon.

Thank you all,

Janna

Subject: SJCA Site 21 Proposed Plan - EPA Legal Comment Resolution
Importance: High

Bob, Betsy, and Team,

The draft responses to the EPA legal comments provide yesterday are attached. (I am calling them draft because Walt is currently out for meetings, so want to reserve the right for him to modify my responses. I don't see too many that should cause concern so I'm comfortable moving forward with these RTCs.) Please review the attachments to identify any outstanding concerns. There are 3 attachments:

1. "EPA Legal RTCs_SJCA Site 21 PP.pdf" contains the written responses to each comment.
2. "RL Public PP_SJCA_Site 21.pdf" is the markup of the document addressing the comments. (Sorry, I know EPA's preference is not to work in pdf, so I apologize for any inconvenience with this format; however, because the PPs are prepared in InDesign (not Word), this is the format I need to use to have the changes made. Due to the tight schedule, I wasn't able to do it both ways.)
3. "EPA Legal Comments SJCA Site 21 PP_response tracking.doc" provides informal responses in the Word file submitted by EPA and ties the comments to the written response file (#1 above).

Sorry if this is confusing. Let me know if you have any questions.

Assuming there may be some things left to discuss after you've looked at everything, I will schedule a conference call in one of the time slots Bob provided yesterday for us to verbally resolve any outstanding issues. Also feel free to contact me at my desk or on my cell phone with any questions.

Janna Staszak, P.E.
