NAS PENSACOLA
5090.3a

Dear Ms. Drew:

Naval Air Station Pensacola is proposing to dispose of Investigative Derived Waste soil cuttings at a permitted hazardous waste landfill. The analytical data generated during the remedial investigation activities will be used to characterize the waste for transport and disposal. This option was selected after consultation with the Florida Department of Environmental Regulation, your office, and is consistent with EPA guidance document EPA/540/G-91/009 Management of Investigation-Derived Wastes During Site Inspections.

If you have any questions concerning the disposal options selected, please call Mr. Ron Joyner, Code 18520, at (904) 452-4515.

Sincerely,

W. T. R. BOGLE
Captain, U.S. Navy
Commanding Officer
