PROJECT DESCRIPTION:

Design-bid-build contract to construct a new four-lane divided highway system from the intersection of Bougainville Drive and Camp Knox Road in a southeasterly direction directly across the Northeast Creek and ending at the intersection of Brewster Boulevard and Charles Street. The scope of work also includes widening Brewster Boulevard from this intersection all the way to Holcomb Boulevard. The crossing of Northeast Creek will be facilitated by the construction of a 2000-foot reinforced concrete-deck slab bridge.
