

CESO Internet/Intranet Websites

HOW DO I OBTAIN EM 385-1-1, 2008

Electronically:

- CESO INTERNET website: [http:// www.usace.army.mil/ceso/pages/home.aspx](http://www.usace.army.mil/ceso/pages/home.aspx)
- HQ USACE publications site: <http://140.194.76.129/publications/eng-manuals/>

Hard Copies: USACE and NAVFAC Headquarters have hard copies in stock so if you need more hard copies, contact. When inventory levels warrant, data call will go out for numbers needed for 2nd run.

- AGC: obtained permission to reproduce; Listed with price on the AGC website: Members pay: \$49.00 Non-members pay \$73.50:
<http://iweb.agc.org/iweb/Purchase/CatalogSearchResults.aspx?Option=1&ProductTypeText=All&ProductTypeValue=All&Title=&Author=&ProductDesc=corps+of+engineers>

- GPO: has limited quantity and has made available on website: \$65;
<http://bookstore.gpo.gov/actions/GeneralSearch.do>

Is USACE going to initiate a 2nd printing? ONLY WHEN NUMBERS ARE LOW ENOUGH TO WARRANT THAT HAPPENING.

If so will we it be at a reduced rate comparable to the first run? UNIT PRICE IS BASED ON NUMBER PRINTED – WOULD BE REDUCED BUT NOT NECESSARILY AS LOW AS FIRST PRINTING.

Loose-Leaf Copies:

3-ring Binder Information:
 Forbes Custom Products

References:

References available via Whole Building Design Guide (WBDG website) – working for more complete subscription. I get many requests for publications of various types. All USACE/DOD employees have available to them a subscription service that may have most of what you need. I've found that very few folks within our CoP know about this. **HOW DO I GET THERE?**

- Go to CESO website. <http://www.usace.army.mil/ceso/pages/home.aspx>
- Bottom of page, Under LINKS, WBDG site (it takes you to www.wbdg.org);
- on the right, you'll see shields of various participating organizations. The 2nd one is DOD - click on it.
- On the right, you'll see the COE castle and a drop down menu - drop it down to "non-government standards - IHS"
- Top right of page you'll see "continue to IHS Stds"...click on this link.
- Choose "Specs & Standards"
- On top, you'll see a box entitled "Doc. No. _____" Type in document of interest (i.e., ANSI B30.5; NFPA 101, etc) and hit Search
- When the list comes up, anything with VIEW by the name you can click on and view/save, etc. If it says BUY, it's not available except through purchase.

Collecting changes, interpretations and clarifications and will post

Nationalize Forms/checklists: intent, inventory, PDT to QA, posting to make available on internet for contractor/QA/other's use

EM training

Other tools: tests, training, tool box meeting material, newsletter-type data;

What do you want on the internet/intranet sites – What would help you and your districts/centers/labs?
