

Para. 1.3	Work Boat Lift and Storage Unit	99-020
-----------	---------------------------------	--------

### Work Boat Lift and Storage Unit

---

Question: Work Boat Lift and Storage Unit. Does a garden hose powered, piston driven, hydraulic boat lift and storage device intended to store a Boston whaler up above the water on a float require testing in accordance with NAVFAC P-307?

Answer: This type of device does not meet the definition of a crane or hoist as contained in NAVFAC P-307 and, therefore, P-307 testing requirements do not apply.
