

Pre-Scheduled, Open Enrollment

The reduced number of instructor-led training (ILT) classes schedule comes about for several reasons including the availability and growing use of web-based training (WBT) and declining participation in scheduled ILT events. To request individual billets for a particular NAVFAC P-307 ILT class go to the [ENROLLMENT](#) section of this web site and follow the directions provided.

Course Title	Location	Dates	Hours	Site
<i>There are no ILT classes scheduled for FY15. See below options.</i>				

Quota Based, Open Enrollment

Additional ILT classes may be scheduled based on received requests. When a sufficient number of requests are received [to support teaching a particular course] the date, time, and location of the class will be established. To request individual billets for a particular NAVFAC P-307 ILT class go to the [ENROLLMENT](#) section of this web site and follow the directions provided.

Activity Site Specific, Closed Enrollment

Activities may request ILT events at their site. Activities will provide funding and a proper classroom environment to conduct requested training. A high speed internet connection is required. Activities should plan to allow trainees to remain in class, uninterrupted, until the class is complete. To request on-site training [CLICK HERE](#).

Note: Navy Crane Center courses are knowledge based; they do not provide hands-on training. Hands-on training is the responsibility of the activity/organization. Activities/organizations shall assess and validate the competency of personnel to safely perform weight handling tasks and functions prior to assigning those tasks and functions.
