Lora,

The New York State Dept of Environmental Conservation (NYSDEC), in conjunction with the New York State Department of Health (NYSDOH) and members of the NYSDEC Operable Unit 2 (OU2) Technical Advisory Committee (TAC) have reviewed the Naval Facilities Engineering Command (NAVFAC) report entitled:

"March 2012 Letter Work Plan Addendum TT-102D/TT-102D2 (VPB133) Pre-design Field Investigation OU2 Off-Site Groundwater Investigation, NWIRP Bethpage NY."

After a 30 day review period, there were no comments generated on this report. Therefore, in accordance with the Post Record of Decision NAVFAC-Midlant-NYSDEC Federal Facilities Site Remediation Agreement (FFSRA) and by means of this e-mail, the above report is hereby approved for immediate implementation. Based on our telephone conversation, field work is expected to commence during May 2012. Please contact me directly in the meantime if you have any questions prior to installation of the two monitoring wells.
