Team,

A draft copy of the Site 49 RI/FS has been uploaded to the IR Web Portal and is available for your review. Please note that screening levels may have been updated since this evaluation and report was completed. The changes are unlikely to have any impacts on the report conclusions and recommendations and the screening levels can be updated for the final report.

Paper and CD copies will follow next week. Please contact me with any questions.

Have a safe holiday weekend.

Kevin Howell, P.G.
