RE: Concurrence letter on the Responses to Comments and Revised Redlined Draft  
Permanganate Tracer Study Work Plan, OU#15, Site 88  
Camp Lejeune, MCB Superfund Site  
NC6170022580  
Jacksonville, Onslow County, North Carolina

Dear Mr. Cleland:

The NC Superfund Section received the Responses to State Comments on the Draft Permanganate Tracer Study Work Plan by email on 21 July 2015. I have reviewed the Revised Redlined Work Plan from the web portal and concur with the responses to comments on the original draft document along with the changes from the "blind end" (single-entry) to the "continuous" (double-ended) Horizontal Directional Drilling (HDD) well and the associated well material change.

If you have any questions or would like to discuss the Pilot Study further, please give me a call at 919-707-8341 or email me at [randy.mcelveen@ncdenr.gov](mailto:randy.mcelveen@ncdenr.gov).

Sincerely

Randy McElveen  
Environmental Engineer  
NC Superfund Section
