Re: Technical Memorandum  
2015 Site Reconnaissance at  
Former Cat Island Bomb Target BT-2  
MCAS Cherry Point  
NCDEQ Concurrence

Dear Ms. Vanture:

The NC Department of Environmental Quality (NCDEQ) has completed a review of the Technical Memorandum for the 2015 Site Reconnaissance at the Former Cat Island Bomb Target, BT-2. NCDEQ concurs with the recommendations made:

- To conduct an additional surface clearance to remove accumulated items which are material potentially presenting an explosive hazard (MPPEH); and
- To replace warning signs on the island that are in deteriorated condition.

If you have any questions, please contact me at (919) 707-8342.

Sincerely,

Martha T. Morgan, PE Environmental Engineer  
Division of Waste Management, NCDEQ
