Dear Ms. Witt-Smith:

Naval Weapons Support Center Crane (NWSCC) requests a 30 day extension on the due date of September 10, 1990 for submission of the Beech Creek Dye Tracer Test Final Technical Report for the Ammunition Burning Grounds (ABG). The extension was discussed with you during a telephone conversation with Mr. Jim Hunsicker on August 30, 1990. You indicated there would be no problem with granting a 30 day extension on the aforementioned due date.

This extension is being requested because individuals responsible at the Army Corps of Engineers for revising this document were involved in conducting the second dye tracer at the ABG and have just started revising said plan. This request is submitted in accordance with Section I.D. 13 on page 4 of 48 in the NWSCC's Part B Permit.

NWSCC point of contact is Mr. Jim Hunsicker, Code 0924, telephone 812-854-3233.

Sincerely,

JOHN W. HAYS  
PUBLIC WORKS OFFICER

Commanding Officer
