RE: Draft IM Work Plan
Dye Burial Ground
Naval Weapons Support Center
Crane, Indiana
IN5 170 023 498

Dear Commander Hays:

The United States Environmental Protection Agency (U.S. EPA) has reviewed your Draft Interim Measure (IM) Work Plan for the Dye Burial Ground, for the above referenced facility, dated October 17, 1990. We hereby approve the IM Work Plan with one modification, which is, the date that activities will begin. It is our understanding that the U.S. Army Waterways Experiment Station (WES) will be conducting the IM during, or shortly after, the week of January 21, 1991, depending on weather conditions.

Please notify our office of any changes in the scheduled date to perform the surveys. And, make sure that the IM is photo documented.

If you have any questions regarding this matter, please contact Ms. Carol Witt-Smith of my staff, at (312) 886-6146 for assistance.

Sincerely,

Karl E. Bremer, Chief
RCRA Permitting Branch
