RE: Interim Measure Report Approval
SWMU 26/08D: Highway Dump Site B
Naval Surface Warfare Center
Crane, Indiana

Dear Ms. Freeman:

The United States Environmental Protection Agency (U.S. EPA) hereby approves the Draft Interim Measures Report for Solid Waste Management Unit (SWMU) 26/08D: Highway Dump Site B, revised May 4, 1998. The U.S. EPA recommends that the U.S. Navy should consider submitting a request for deletion of this unit from further corrective action activities since all the waste materials and contaminated soil have been removed down to bedrock. The request for No Further Action should include: A Class 3 permit modification request, with the necessary public meeting information required by the Permittee, a risk screening evaluation, and any other requirements from your operating permit conditions that you have to comply with to delete SWMUs from corrective action, if any.

If you have any questions regarding this matter, please contact me at (312) 886-6146 for assistance.

Sincerely,

A handwritten signature in cursive script, appearing to read "Carol Witt-Smith".
