MAN 2007

Dear Mr. Ramanauskas:

Crane Division, Naval Surface Warfare Center (NSWC Crane) submits, for your review and approval, the Draft Grit Blast Site Recommendations for Remediation Report. One copy of the report is provided as enclosure (1). Enclosure (2) is the required certification statement.

NSWC Crane submits this report in response to additional sampling events jointly proposed by your office and NSWC Crane beyond those in the approved Grit Blast Closure plan. The sampling events were conducted to determine the extent of contamination as a result of grit blasting operations. NSWC Crane requests that this report be considered as the formal closure report and that once approved the closure action for the Grit Blast Site be considered closed.

If you require any further information, my point of contact is Mrs. Christine D. Freeman, Code PRCR4-CF, at 812-854-4423, email christine.freeman@navy.mil.

Sincerely,

J. M. Hunsicker
