Tom,

I was able to talk to Jean about the SWMU 9 IM WP and responses to comments. The responses are acceptable and we have no further comments. You may implement the work plan at your discretion. I have also routed the QAPP Addendum 4 signature page around and will mail that to you when done. Please provide needed change pages to the QAPP Addendum and IMWP to make my copies final.

Any luck with the variance?

Please let me know if you have questions or if you'd like something more formal from me on this QAPP/workplan.

Thanks,
Pete

FW: SWMU 9 IMWP Response to
11-1-07 EPA Request for
Additional Clarification

Pete,

Attached are the responses to EPA comments on the IMWP. There are 3 documents addressing 3 separate rounds of comments. This, along with the other 2 emails I sent to you today, should be all that we owe you in regards to the SWMU 9 IM project. Please let me know if I'm missing something or if you have any other comments.

As stated previously, the project is ready to be implemented. We're on-hold pending approvals from EPA - both from your folks, Jean G. (Self-Implementing Workplan), and Todd R. (LDR Variance Request); as well as from Dave Berrey at IDEM (Contained-In Determination). I'm hopeful that now that we're through the Holidays, things will begin to move.

Thanks,
Tom

RE: Final

Navy Response to United States Environmental Protection Agency (USEPA) Comments (Received Electronically: November 1, 2007) Regarding Solid Waste Management Unit (SWMU) 9 (Pesticide Control Area) Interim Measures Work Plan (IMWP)

Naval Surface Warfare Center (NSWC) Crane

Crane, Indiana

Subject: Response to USEPA Additional Clarification Request

(Received Electronically: July 20, 2007)
Regarding SWMU 9

Response to USEPA Comments

(Received Electronically: June 14 and 21, 2007)
Regarding SWMU 9 IMWP

Dear Mr. Hickey:

On September 28, 2007, Tetra Tech NUS, Inc. (Tetra Tech) transmitted responses to USEPA request for additional clarification dated June 14

and 21, 2007 (<<127030.Hickey Enclosure 1 RTCs.doc>>
<<SWMU_9_IMWP_Encl.pdf>>). On November 1, 2007 USEPA requested further clarification to
these comment responses.

On November 16, 2007, Tetra Tech NUS, Inc. (Tetra Tech) transmitted draft responses
to the USEPA request for additional clarification. On November 20, 2007, the Navy
provided comments on these draft responses.
Responses to these Navy comments are provided in the following
attachment: <<127030.Hickey Enclosure 2 RTCs.doc>>
<<SWMU_9_IMWP_Enc2.pdf>> .

Per Navy instructions, a resolution to ecological comment
[EPA-Eco-1(11-01-07)] was developed based upon direct contact between Dan Mazur
(USEPA) and Aaron Bernhardt (Tetra Tech) through telephone conference calls (telecoms)
conducted from November 20 through December 3, 2007.

On December 3, 2007, a telecom was conducted between Tetra Tech (Ralph Basinski, Aaron
Bernhardt, Tim Smith, Kim Turnbull, and Valerie Plachy) and NSWC Crane (Tom Brent)
representatives to review options discussed
with Dan Mazur. The consensus from that telecom was accepted by Dan
Mazur and is the basis for the response to EPA-Eco-1(11-01-07). The final responses
to USEPA Additional Clarification Request are provided
in the following attachment: <<127030.Hickey Enclosure 3 RTCs.doc>>
<<SWMU_9_IMWP_Enc3.pdf>> .

Please note that the IMWP has been "marked up" as described in the
responses. Unless otherwise directed, the draft version will be
prepared from the markup once the Navy has reviewed and approved these
responses and issued when the "contained-in" and Land Disposal
Restriction (LDR) variance status have been resolved.

Please contact Ralph Basinski at 4129218308 (email:
Ralph.Basinski@tetrattech.com) or me at Valerie Plachy at 412-921-8389
(e-mail: Valerie.Plachy@tetrattech.com) regarding any questions or comments.

Sincerely,
Valerie Plachy for
Ralph R. Basinski
