Re: Interim Measures Work Plan
Approval - SWMU 13 Mine Fill B
PCB Removal

Dear Mr. Brent:

The U.S. Environmental Protection Agency RCRA and TSCA programs have reviewed the Interim Measures Work Plan for Solid Waste Management Unit #13 - Mine Fill B dated July 2008. All agency comments have been satisfactorily addressed and the Work Plan is approved.

The Navy may proceed with implementing this Interim Measure at their discretion. This Interim Measure removal activity may or may not be sufficient to be considered the final remedy for this portion of the site. EPA may require additional remediation and/or removal of the concrete trenches, drainage culverts and sump which contained PCB impacted sediments as part of the final remedy.

If you have any questions regarding this matter, please contact me at (312) 886-7890.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter Ramanauskas".
