Dear Mr. Ramanauskas:

Naval Facility Engineering Command Mid-Atlantic, Public Works Department, Crane requests approval for cleanup and disposal of Polychlorinated Biphenyls (PCBs) from Solid Waste Management Unit 21 under 40 CFR 761.61(c). The PCB cleanup and disposal activities will be conducted per the approved Interim Measures Work Plan dated October 21, 2014.

My signature serves as certification that all sampling plans, sample collection procedures, sample preparation procedures, extraction procedures, and instrumental/chemical analysis procedures used to assess or characterize the PCB contamination at the cleanup site, are on file in Building 3245 at Naval Support Activity Crane, and are available for United States Environmental Protection Agency inspection. In addition, the permit required Certification Statement is also provided for your records.

If you require any further information, my point of contact is Thomas J. Brent, telephone 812-854-6160 or email thomas.brent@navy.mil.

Sincerely,

J. A. RIGGINS
Environmental Division Director
