Subject: **Draft-Final**
Interim Measures Report for Solid Waste Management Unit 27 - Settling Tank and Sump
Removals and Former Building 181 Area - Settling Tank, Cistern, Underground Storage
Tank Removals, Naval Support Activity Crane, Crane, Indiana

Dear Mr. Hickey:

Enclosed for your review is a printed unbound copy of the subject Draft-Final Interim Measures (IM) Report describing infrastructure removal actions performed to address previous environmental report recommendations for Solid Waste Management Unit (SWMU) 27 and the Former Building 181 Area at NSA Crane, Indiana. The Draft IM Report is based on information provided by the Environmental Multiple Award Contract (EMAC) remediation contractor selected to complete this activity, SEQ Vets Remediation Joint-Venture, Inc. (SEQ Vets). Review comments on the Draft IM Report were provided to Tetra Tech by Mr. Tom Brent (NSA Crane) on January 24, 2014. Mr. Brent has worked to assist Tetra Tech in obtaining critical project documentation from SEQ Vets and resolving minor data gaps noted in the Draft IM Report. A formal Response to Comments document is attached to this letter.

The electronic files used to produce the subject IM report have been recorded on the enclosed Compact Disk (CD) and are certified as "virus free." The CD includes both native (updatable) format and Adobe Acrobat (.pdf) format files, as required for task order electronic data deliverables for NAVFAC. Electronic files for the IM photographs have been added to the CD at the request of Mr. Brent. Please contact Ralph Basinski at (412) 921-8308 (email: Ralph.Basinski@tetrattech.com) or Rick Barringer at (412) 921-8524 (email: Rick.Barringer@tetrattech.com) regarding any questions or comments.

Sincerely,

Ralph Basinski
Project Manager
