Subject: CLEAN Contract N62472-03-D-0057  
Contract Task Order No. F272

Reference: Reprinted Revised Technical Memorandum: Work Plan for Proposed Supplemental Sampling Activities at UXO 7, Naval Support Activity Crane

Dear Mr. Hickey:

Enclosed for your review and acceptance is reprinted 3-ring binder copy of the subject Technical Memorandum for the supplemental sampling activities planned for UXO 7 at Naval Support Activity (NSA) Crane. The enclosed reprinted revised version was modified to address the request for a 3-ring report binder format comment provided by Mr. Tom Brent at NSA Crane to Tetra Tech on September 29, 2011.

Please remove the Compact Disk (CD) that contains the electronic files for this Technical Memorandum from the previously submitted version (with the cover letter dated September 28, 2011) and place it into the CD pocket included in the enclosed 3-ring binder version. No files were changed, only the binder format. The electronic files used to produce the printed documents have been recorded on the enclosed CD and are certified as "virus free." The CD includes both native (updatable) format and Adobe Acrobat (.pdf) format files, as is typically required for task order electronic data deliverables to NAVFAC.

A Response to Comments Matrix is also enclosed with this letter and addresses comments provided by Mr. Peter Ramanauskas, USEPA Region V. Mr. Tom Brent approved Tetra Tech's e-mailed responses to the USEPA comments on September 26, 2011 and requested submittal of the Revised Technical Memorandum for Supplemental Sampling Activities at UXO 7.

Please contact the undersigned at (412) 921-8524 (e-mail: [rick.barringer@tetrattech.com](mailto:rick.barringer@tetrattech.com)) or Mr. Jim Goerdts at (412) 921-8425 (e-mail: [jim.goerdts@tetrattech.com](mailto:jim.goerdts@tetrattech.com)) regarding any questions or comments.

Sincerely,

Richard A. Barringer  
Task Order Manager
