Subject: Final RFI Report – Subareas B, C, and F and Boggs Creek
SWMU 18 – Load and Fill Area
Naval Support Activity Crane
Crane, Indiana

Dear Mr. Hickey:

Please find enclosed for your records a hard copy and an electronic copy of the final RCRA Facility Investigation Report for Subareas B, C, and F and Boggs Creek, SWMU 18 – Load and Fill Area – at Naval Support Activity (NSA) Crane. One comment was received from Indiana Department of Environmental Management (IDEM's) on the draft report, regarding the source of RDX in Boggs Creek. The comment was addressed with the addition of a statement regarding the source of the RDX being SWMU 13 (Mine Fill B). Due to the minor change, the report date remained as October 2013.

Mr. Tom Brent has been sent four copies of the replacement pages and four electronic copies of the report for his records and for submittal to the IDEM and USEPA. Replacement pages have been provided to address IDEM's comment. Replacement pages have also been provided for the cover and spine of the report

If you have any questions, feel free to contact at 412-921-7281 or tim.evans@tetrattech.com.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Timothy S. Evans', with a long horizontal flourish extending to the right.

Timothy S. Evans
