Subject: CLEAN Contract N62472-03-D-0057
Contract Task Order No. F272

Reference: Revised Technical Memorandum: Work Plan for Proposed Supplemental Sampling Activities at UXO 7, Naval Support Activity Crane

Dear Mr. Hickey:

Enclosed for your review and comment are a printed hardcopy and a Compact Disk (CD) containing the electronic files for the subject Technical Memorandum for the supplemental sampling activities planned for UXO 7 at Naval Support Activity (NSA) Crane. The enclosed revised version has been modified to address technical/editorial comments provided by Mr. Peter Ramanauskas at the USEPA; which were concurrently relayed to you, Mr. Tom Brent at NSA Crane, and Tetra Tech on September 14, 2011. Mr. Tom Brent approved Tetra Tech's e-mailed responses to the USEPA comments on September 26, 2011 and also requested preparation and submittal of the Revised Technical Memorandum for Supplemental Sampling Activities at UXO 7 along with the responses to comments matrix. The comment and response matrix is also enclosed with this letter.

The electronic files used to produce the printed documents have been recorded on the enclosed CD and are certified as "virus free." The CD includes both native (updatable) format and Adobe Acrobat (.pdf) format files, as is typically required for task order electronic data deliverables to NAVFAC.

Please contact the undersigned at (412) 921-8524 (e-mail: rick.barringer@tetrattech.com) or Mr. Jim Goerdts at (412) 921-8425 (e-mail: jim.goerdts@tetrattech.com) regarding any questions or comments.

Sincerely,

Richard A. Barringer
Task Order Manager
