Subject: NAVFAC Biological Resources Services Contract N62470-08-D-1008
Contract Task Order No. F271

Reference: Final Interim Measures Work Plan for UXO 7 – Old Rifle Range and Trap Ranges
Naval Support Activity Crane, Indiana

Dear Mr. Hickey:

Enclosed is a bound and printed hardcopy with a Compact Disk (CD) containing the electronic files for the subject Final Interim Measures Work Plan (IMWP) for UXO 7 at Naval Support Activity (NSA) Crane, Indiana. The enclosed IMWP has been updated to address comments from the U.S. EPA Region V on the Draft-Final IMWP (dated July 2013) and also the Composite Soil Sampling Plan which was originally submitted as a separate document, but is now included as Appendix D of the IMWP to comply with a recommendation provided by U.S. EPA. The accepted responses to U.S. EPA review comments for these documents are attached to this letter.

The electronic files used to produce the printed documents have been recorded on the enclosed CD and are certified as "virus free." The CD includes both native (updatable) format and Adobe Acrobat (.pdf) format files, as is typically required for task order electronic data deliverables to NAVFAC.

Please contact the undersigned at (412) 921-8524 (e-mail: rick.barringer@tetrattech.com) or Mr. Ralph Basinski at (412) 921-8308 (e-mail: ralph.basinski@tetrattech.com) regarding any questions or comments.

Sincerely,

Richard A. Barringer
Task Order Manager
