RE: INSTALLATION RESTORATION PROGRAM AT NWS EARLE ,COLTS NECK, NJ

Dear Ms. Karas:

Please find enclosed a copy of draft Interim Report, Confirmation Study to Determine Existence and Possible Migration of Specific Chemical In Situ prepared by our A/E firm which is conducting the referenced investigation. As indicated during your telephone conversation with Mr. David Smith of this office on May 7, 1987 in which you requested a copy of the draft report, this report is a draft and is not meant for public release. The report is being forwarded for your review. Your comments and recommendation would be appreciated and helpful in order to assure that Navy's Remedial Investigation at NWS Earle continues to adhere to the requirements of both our agencies' and of the Superfund Amendments and Reauthorization Act of 1986 (SARA).

If there are any questions concerning the referenced program please contact Mr. Smith or myself at (215) 897 - 6280.

A handwritten signature in black ink, appearing to read "T. G. Sheckels".

T. G. SHECKELS
Acting Head, Environmental Protection Branch
By direction of the Commanding Officer
