Philadelphia, PA 19112-5094

Dear Jerry,

Enclosed, are copies of the Laboratory Quality Assurance Plans for Weston/Gulf Coast Laboratories and NET Atlantic, Inc. Also included are the Performance Evaluation (PE) scores for both laboratories. Gulf Coast is not currently in the USEPA CLP. They are however in the Illinois EPA CLP. For this program, the lab uses the same SOW as USEPA CLP. The lab analyzes annual PE samples submitted by the state of Illinois. A copy of their last results is enclosed.

Likewise, NET is not currently in the USEPA CLP. They do however analyze PE samples for NJDEP. A copy of their latest PE results is enclosed.

This information may be forwarded to A. Jackson, at EPA. If you have any questions concerning this submittal, please contact me at (215) 430-7256.

Very truly yours,

ROY F. WESTON, INC.
