Subject: CLOSURE OF NWS EARLE DEMILITARIZATION FURNACE

1. Caller called to introduce himself. The Bureau of Hazardous Waste Engineering has accepted our certification of closure of the Demil Furnace, and have now turned the case over to the Bureau of Federal Case Management for remediation of soil contamination.

2. The first round of soil sampling, performed last July, showed elevated levels of heavy metals. We proposed an additional round of sampling around January, but have not yet received NJDEP approval. Caller said his office has our proposal and intends to complete a review in about a month.

3. His address is:

New Jersey Department of Environmental Protection
Bureau of Federal Case Management
CNO28
Trenton, NJ 08625

Comments

If we receive approval in August or September, we will need \$25K of PA funds to perform the additional sampling.
