Re: NWS Earle Site Investigation Workplan

Dear Mr. Hoover:

This is a follow-up to our telephone conversation on July 24, 1991, regarding the above referenced subject.

At that time, you mentioned that the New Jersey Department of Environmental Protection had requested site maps outlining the locations where the samples would be taken and that I would be receiving them shortly. I told you that the U.S. Environmental Protection Agency (EPA) had to respond to the U.S. Navy's responses to EPA's comments on the SI Workplan by July 25, 1991, and that an extension would be necessary.

Therefore, in accordance with Section XVI (Extensions) of the NWS Earle Interagency Agreement, EPA is requesting a two week extension.

If you have any questions concerning this matter, please contact me at (212) 264-6609.

Sincerely yours,
