Dear Mr. Hoover:

Re: Naval Weapons Station Earle
Colts Neck Township, Monmouth County
Remedial Investigation
Second Round Ground Water Sampling

The Department of Environmental Protection and Energy (DEPE) has reviewed the proposal for second round ground water sampling. The scaling down of parameters to monitor for target chemicals is acceptable to the DEPE. The Navy must include Beryllium in its second round of analysis due to its presence in several monitor wells in levels exceeding drinking water standards.

If you have any questions, please call me at (609) 633-1455.

Sincerely,

Joseph Freudenberg, Case Manager
Bureau of Federal Case Management
