Re: INSTALLATION RESTORATION PROJECT, NAVAL WEAPONS STATION
(NWS) EARLE, COLTS NECK, NJ

Dear Mr. Ingrisano:

This letter confirms the agreement (of 29 August), regarding purge and development water. The Navy desires on site disposal of purge and development water from monitoring wells; the water will be deposited within site boundaries in a non-nuisance manner. Representatives from NJDEP and the EPA stated that this is acceptable. Unless otherwise directed, the Navy will incorporate this practice into the plan of action for the Site Inspection and Remedial Investigation. Analytical data from these wells has been provided to the EPA (29 July 91).

If you have any questions, please contact me at (215) 897-6280.

Sincerely,

Richard E. Fini
Head, Restoration Technical Section
By Direction of the Commanding Officer
