Re: EPA Approval of the Navy's draft final *Remedial Investigation Workplan* (June, 1995), Naval Weapons Station (NWS) Earle, Colts Neck, New Jersey

Dear John:

In accordance with the Federal Facilities Agreement (FFA) entered into between the Environmental Protection Agency (EPA) and the Navy for the NWS Earle facility, EPA has reviewed the Navy's draft final *Remedial Investigation Workplan* (June, 1995). EPA's comments of March 3, 1995, have been adequately addressed; therefore, we approve the workplan. One minor change which we both agreed to is the addition of 2 monitoring wells downgradient of well MW26-01 at Site 26.

If you have any questions please call Bob Wing, Chief of the Federal Facilities Section, at (212) 637-4332.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeffrey Gratz".

Jeffrey Gratz, Project Manager
Federal Facilities Section
