Ms. Jessica Mollin
Remedial Project Manager
U.S. Environmental Protection Agency
Federal Facilities Section (20th Floor)
290 Broadway
New York, New York 10007-1866

Dear Ms. Mollin:

SUBJECT: FINAL CLOSEOUT REPORT FOR REMOVAL OF MINE ACTUATORS AT
NAVAL WEAPONS STATION EARLE, COLTS NECK, NEW JERSEY

The cleanup of the mine actuators at Site 48, Naval Weapon Station Earle has been completed. A final closeout report has been written to document this effort. Please find a copy of this report for your records. As agreed upon during the Preliminary Assessment/Site Investigation (PA/SI), the Navy removed the actuators as a housekeeping effort.

At the request of the Navy, Tetra Tech FW performed the cleanup activities at Site 48. This effort was completed in May of 2004.

The Navy has completed the agreed upon effort and recommends no further action for Site 48.

If you should have any questions, please contact Michele DiGeambeardino at (610) 595-0567 extension 117.

A concurrence letter would be appreciated if there are no further questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Michele DiGeambeardino".

MICHELE DIGEAMBEARDINO
Remedial Project Manager
By direction of the
Commanding Officer
