UNITED STATES

The United States Navy

announces a

NOTICE OF AVAILABILITY

for two Records of Decision (RODs)

NAVAL WEAPONS STATION (NWS) EARLE

COLTS NECK, NEW JERSEY

The United States Navy announces that the RODs for Site 3 (Landfill Southwest of "F" Group) and Site 10 (Scrap Metal Yard), together designated Operable Unit 6 (OU 6), and Site 26 (PCE Plume), designated OU 7, at NWS Earle have been finalized. The RODs present the selected remedial action alternative remedies at each site.

The selected remedy for Site 3 consists of an engineered landfill cap, land use controls (LUCs), and periodic groundwater monitoring by the Navy. Initiation of a groundwater Classification Exception Area (CEA) under New Jersey law (N.J.A.C. 7:9-6) will prohibit groundwater extraction and use in the immediate vicinity of the site, until New Jersey groundwater quality standards (GWQS) are achieved. The selected remedy addresses containment of landfill contents that have been covered in place and excavation of sediments from landfill erosion areas that have been placed under the soil cap.

The selected remedy for Site 10 consists of an engineered Resource Conservation and Recovery Act (RCRA)-type cap system, LUCs, and periodic groundwater monitoring by the Navy. Initiation of a groundwater Classification Exception Area (CEA) under New Jersey law (N.J.A.C. 7:9-6) will prohibit groundwater extraction and use in the immediate vicinity of the site until New Jersey GWQS are achieved.

The selected remedy for Site 26 consists of LUCs and periodic groundwater monitoring by the Navy. Initiation of a groundwater Classification Exception Area (CEA) under New Jersey law (N.J.A.C. 7:9-6) will prohibit groundwater extraction and use in the immediate vicinity of the site until New Jersey GWQS are achieved.

The ROD documents for OU 6 and OU 7 are available for public review at:

Monmouth Community Library -

Eastern Branch

Route 35

Shrewsbury, New Jersey
