Mr. Brian Helland, Code 1812
Senior Environmental Engineer
Northern Division
Naval Facilities Engineering Command
10 Industrial Highway Mailstop 82
Lester, Pennsylvania

Reference: CLEAN Contract No. N62472-90-D-1298
Contract Task Order No. 206

Subject: Submission of Final Report
UST Phase I RI Report for Various Sites
NWS Earle - Colts Neck, New Jersey

Dear Mr. Helland:

Brown & Root (B&R) Environmental is pleased to submit 5 copies of the subject report. Note that Volume I is the text portion of the RI report and Volume II is the appendices. We are providing one copy of both Volumes to you and 4 copies of Volume I with 3 copies of Volume II to Greg Goepfert at NWS Earle.

The final RI Report incorporates various minor revisions in response to the Navy's October 25, 1996 comments. Regarding the Navy's specific comments concerning tank designation numbers, we are uncertain which designation number applies to which tank. Therefore we revised the text by omitting references to designation numbers, and inserting descriptive information which clarifies tank type and location. We are confident that the revisions meet your requirements. Do not hesitate to contact me if you have any additional questions or comments.

As always, we appreciate the opportunity to complete technical services for the Navy!

Sincerely,

Richard J. Gorrell
Project Manager

RJG/dhn
