Dear Mr. Helland:

Brown and Root (B&R) Environmental Corporation is pleased to provide three copies of the subject report. We are providing you with two copies and we forwarded one copy to Larry Burg at NWS Earle.

Please note that we have proposed Geoprobe® sampling and permanent monitoring wells at R-12. However, the permanent wells may not be required pending the results of the Geoprobe® investigation.

As always, we appreciate the opportunity to complete technical services for the Navy. Do not hesitate to contact me if you have questions or require revisions to the subject report.

Sincerely
