Dear Mr. Helland:

Re: Underground Storage Tank Remedial Investigation Work Plan
for Group 3 Sites
Naval Weapons Station Earle
Colts Neck Twp., Monmouth Co.

The New Jersey Department of Environmental Protection (Department) has reviewed the above referenced report, prepared by Brown & Root Environmental on behalf of the Naval Weapons Station Earle, dated April 1997. The report is approved pending the following comment is addressed:

1) AOC-9 - The proposed well and soil sample should be biased towards the previous sample with the highest levels of contamination, in this case the well and soil sample should be moved from the center of the former excavation towards sample location C9-5.

If you have any questions, please call me at (609)-633-7327.

Sincerely,

A handwritten signature in cursive script that reads "Bob Marcolina".

Bob Marcolina, Case Manager
Bureau of Federal Case Management

c: Rick Gorrell, Brown & Root Environmental
