Department of Environmental Protection  
Division of Waste Management  
Attn: Mr. Frank Coolick  
32 East Hanover Street, CN 028  
Trenton, NJ 08625

Gentlemen:

As recommended by your letter of October 21, 1985 to Mr. William R. Nicol of the Naval Sea Systems Command, we are enclosing a revised Part A Application for Naval Weapons Station Earle to include our demilitarization furnace. Although we do not necessarily agree that this demilitarization furnace is properly classified as a hazardous waste thermal treatment unit subject to your hazardous waste management regulations, we are complying with your guidance pending further deliberations on this issue.

We trust that the enclosed documentation provides a satisfactory basis for granting interim status to our demilitarization furnace.

Sincerely,

P. S. BENSON  
Captain, U. S. Navy  
Commanding Officer
