Gentlemen:

On 8 April 1986 you issued a Notice of Violation and Compliance Demand (RCRA Docket No. 86-0104) to this activity as the result of an earlier interim status compliance inspection. In this document you requested that we inform you in writing as to our agreement with your proposed schedule for corrective action. You also advised that if we had questions concerning the Findings or Compliance Requirements of the NOV/CD, we could request a conference with the EPA and the NJDEP in accordance with the "Informal Settlement Procedure" of the NOV/CD.

Confirming the telephone conversation of today between our Mr. John Mahoney (Public Works Department, Naval Weapons Station Earle) and your Mr. Bruce Adler (Chief, Waste and Toxic Substance Branch, EPA Region II), we do not agree with all of the Findings and Compliance Requirements contained in the NOV/CD, would very much appreciate meeting with you and the NJDEP to discuss these issues at your earliest convenience. We understand such a meeting will be held at 26 Federal Plaza at a time to be established by you.

We look forward to working with you on this matter.

Sincerely,

L. R. PYLANT
Commander, U. S. Navy
Public Works Officer

the Commanding Officer
