Gentlemen:

On March 15, 1988 your office issued a letter to Naval Weapons Station Earle outlining deficiencies in the Trial Burn Plan submitted on October 27, 1987. Subsequent to your letter, a meeting was held on May 3, 1988 to discuss and clarify the deficient items. As a result of that meeting, the Trial Burn Plan has been revised by the Demilitarization Section of the Ordnance Engineering Department, Naval Weapons Support Center, Crane, Indiana and four (4) copies are submitted for your review and approval. The point of contact for technical review information is Mr. Dan Burch (812)854-1577 at the Naval Weapons Support Center, Crane, Indiana. If you have any questions regarding administrative matters, please contact Mr. William Matthaey, Environmental Engineer, Naval Weapons Station Earle at (201)577-2146.

Sincerely,
