Lester, Pennsylvania 19113

Reference: CLEAN Contract No. N62472-90-D-1298  
Contract Task Order No. 81

Subject: Transmittal of Draft Final Incinerator Cleanup Plan for NWS Earle

Dear Mr. Helland:

Enclosed is one (1) copy of the draft final Incinerator Cleanup Plan for Naval Weapons Station (NWS) Earle. One (1) copy is also being sent to Gus Hermani of the facility under separate cover. Three (3) copies, along with one (1) copy of the analytical data package for validation, are being sent to Joseph Freudenberg of the NJDEPE.

The soil volumes and cleanup cost estimates have been revised since submission of the draft report. NJDEPE has revised some of the soil cleanup standards, resulting in additional soil that exceeds these standards.

Please call me at (412) 921-8945 if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Kim C. Turnbull".

Kim C. Turnbull  
Project Manager
