Re: INSTALLATION RESTORATION PROJECT, NAVAL WEAPONS STATION  
(NWS) EARLE, COLTS NECK, NJ

Dear Mr. Kinkade:

I would like to thank you for your interest and participation in the Technical Review Committee (TRC) meetings at NWS Earle as a representative of the Borough of Tinton Falls.

In response to your letter of 23 October 1991 I have enclosed the following documents:

- Minutes of TRC meeting of 13 August 1991
- The analytical tables summarizing the results of the first round of Remedial Investigation (RI) sampling, including site maps with sample locations
- A copy of the Site Inspection (SI) Work Plan dated September 1991
- A copy of the letter from United States Fish and Wildlife Service to Northern Division dated 23 September 1991 concerning the federally listed threatened plant, Knieskern's beaked-rush

Presently, I don't have an overall plan that shows specifically the locations of the monitoring wells and test pit sites. The locations of all monitoring wells are shown on the individual site maps included in the analytical table package. The site maps for RI test pit sites (3, 4, 5, 7, 10) are also in the analytical table package.

Should you require additional information please feel to contact me at (215) 897-6280.

Sincerely,

GERALD F. HOOVER  
Remedial Project Manager  
By direction of the Commanding Officer

Encl:

- (1) Minutes of TRC meeting of 13 August 1991
- (2) RI Analytical Tables and Site Maps
- (3) Site Inspection (SI) Work Plan dated September 1991
- (4) United States Fish and Wildlife Service ltr dtd 23 September 1991
