Subject: Addendum to the Quality Assurance Project Plan,
Pre-Design Investigation Sediment Sampling
Site 13 – Defense Property Disposal Office Yard (OU-5)
Naval Weapons Station Earle, Colts Neck, New Jersey

Dear Ms. DiGeambeardino:

The final Quality Assurance Project Plan (QAPP), Pre-Design Investigation Sediment Sampling for the above-referenced site was issued to the Navy, USEPA and NJDEP in June, 2003. The sediment samples were subsequently collected in June 2003. The June 2003 samples did not completely bound the contamination, therefore an addendum, transmitted herein, has been prepared to address the collection of additional samples to better bound the contamination. It is anticipated the samples will be collected the last week of September. This addendum consists of a new Appendix D which provides the location and procedures for the September 2003 samples. In addition, a new table of contents, cover, title page, and spine are provided to reference the new Appendix D in the document. Please insert the attached addendum and associated change pages in the final QAPP.

Copies of this letter and the addendum have been sent to all recipients of the final QAPP including the USEPA and NJDEP as indicated on the copy list below.

Should you have any questions, please call me at 412-921-8259 or Bob Mertz at 412-921-7167 in our Pittsburgh office.

Sincerely,

Daniel C. Witt, P.E.
Project Manager
