Subject: Transmittal of Draft Design/Build Request for Proposal Package
Site 13 – Defense Property Disposal Office Yard (OU-5)
Naval Weapons Station Earle, Colts Neck, New Jersey

Dear Ms. DiGeambeardino:

Enclosed please find five (5) copies the draft Design/Build Request for Proposal Package for the above-referenced site. This package consists of the following draft components:

- Specifications (Sections 00101 through 13972)
- Cost estimate
- Bid Form
- Schedule

The specifications include six drawings and four attachments. The attachments are as follows:

- Attachment A – Remedy Analysis Report
- Attachment B – Geotechnical Investigation Report
- Attachment C – Wetland Delineation Report
- Attachment D – Sediment Sample Data (to be provided when available)

In keeping with our conversations this week, there are a few brackets (information needed to be filled in) left in the specification for the Navy to fill in during the review. The last three drawings of the drawing set contain the test pit and boring log information obtained during the pre-design investigation. I wanted to mention that due to some software issues that the line work on these drawings is not as crisp as it should be. We are aware of this issue and expect to have it resolved shortly; however I did not want to delay the submission while we corrected these drawings.

Copies of this package have been sent, via this letter, to Dan Zari and Larry Burg at NWS Earle.

Should you have any questions, please call me at 412-921-8259 or Bob Mertz (412-921-7617) in our Pittsburgh office.

Sincerely,

Daniel C. Witt, P.E.
Project Manager
