Subject: Addendum to the Quality Assurance Project Plan,
Pre-Design Investigation Sediment Sampling
Site 13 – Defense Property Disposal Office Yard (OU-5)
Naval Weapons Station Earle, Colts Neck, New Jersey

Dear Ms. DiGeambeardino:

Please find enclosed one copy of the second addendum to the final Quality Assurance Project Plan (QAPP) for the above referenced project. This second addendum outlines the scope of work for additional sediment sampling as the initial and June 2003 sediment sampling events did not completely bound the contamination. TtNUS anticipates that the sediment samples will be collected during the second week of December. This addendum consists of an additional appendix (Appendix E) which provides the location and procedures for the December 2003 sampling event. In addition, a new table of contents, cover, title page, and spine are provided to reference Appendix E in the document. Please insert the attached addendum and associated change pages in the final QAPP.

Copies of this letter and the addendum have been sent to all recipients of the final QAPP including the USEPA and NJDEP as indicated on the distribution list below.

Should you have any questions, please call me at 412 921-8259 or Bob Mertz at 412-921-7167 in our Pittsburgh office.

Sincerely,

Daniel C. Witt, P.E.
Project Manager
