Lester, PA 19113

Dear Mr. Helland:

Re: Building 566 Septic Field - Interim Action &
Response to Comments Submittal (RTC)
Underground Storage Tank Remedial Investigation Report
for Various Sites (Group II)
Naval Weapons Station Earle
Colts Neck Twp., Monmouth Co.

The New Jersey Department of Environmental Protection (Department) has reviewed the above referenced documents, prepared by Brown & Root Environmental on behalf of the Naval Weapons Station Earle. The Department is in agreement with Brown & Root's responses and is considering the Group II Remedial Investigation Report approved. The Interim Action Report for Building 566 is also approved.

For future Response submittals, the Department requests that Brown and Root include the Department's comment itself, then their response to that comment as part of the overall RTC submittal.

If you have any questions, please call me at (609)-633-7327.

Sincerely,

A handwritten signature in cursive script that reads "Bob Marcolina".

Bob Marcolina, Case Manager
Bureau of Federal Case Management

c: Rick Gorrell, Brown & Root Environmental
