**Re: Draft Final Operational Range Assessment Program Phase I Qualitative Assessment Report
Fort Story, Virginia**

Dear Ms. Bateman:

1. The Army Environmental Division of the Army Headquarters has recently directed that Phase I Qualitative Assessment Reports with at least one range characterized as "Inconclusive" will remain in the "Draft Final" status. The reason for remaining in the "Draft Final" status is that "Inconclusive" ranges require further assessment (Phase II) and therefore the assessment process is not complete. Phase II assessments will begin in 2010. The Phase I report will be incorporated into the corresponding Phase II report as an appendix with the Phase I Conceptual Site Model forming the basis of Phase II sampling.
2. If you have any questions regarding this matter, please call John Buck, USAEC, at 410-436-4844, or me at 315-431-4610.

Regards,

EA ENGINEERING, SCIENCE,
AND TECHNOLOGY, INC.
