**RE: Stakeholder Draft Site Inspection Report  
Fort Story, Virginia**

Dear Ms. Bateman:

The Virginia Department of Environmental Quality (DEQ) has received the *Stakeholder Draft Site Inspection Report* (SI Report) for Fort Story, Virginia. The June 2008 SI Report, prepared by URS Group, Inc., was received by the DEQ on June 30, 2008.

Thank you for providing the DEQ's Office of Remediation Programs the opportunity to review the above-referenced SI Report. Following discussion during the August 25, 2008 Technical Project Planning Meeting 3, this office has the following comments:

- (1) **Section 1.2 Project Drivers, DoD Directive 3200.15**  
Please ensure that personnel from Fort Story's DPW Environmental Division are notified when inventories of training ranges and operating areas are conducted. Currently, revisions/updates/coordination takes place a minimum of every 5 years.
- (2) **Appendix F, MRSPP Worksheets**  
Please include Tables 12 through 19 in Appendix F. Although their inclusion does not affect the MRS Priority Rating, the tables should be included for reference.

(3) **Section 7.0 Conclusions and Recommendations**

The DEQ concurs with the MRS Priority Rating of "3" for the Inner Coastal Defense Range MRS.

This letter is intended only as guidance and is not intended to be a case decision under the Virginia Administrative Process Act. If you would like to discuss this guidance, please contact me at (804) 698-4125 or [wmsmith@deq.virginia.gov](mailto:wmsmith@deq.virginia.gov).

Sincerely,

Wade M. Smith  
Remediation Project Manager  
Office of Remediation Programs
