Subj: REVIEW OF POA FOR OU3 RI/FS, PROPOSED PLAN, ROD

Dear David:

During our 15 June 1995 meeting at the MPCA, the EPA offered to assist in the development of the RI Work Plan for OU3. Enclosures (1) and (2) have been provided to Mr. Bloom for review and comment. I am providing Enclosure (1) and (2) to give the MPCA the opportunity to review and provide comments. In order to meet the proposed dates for delivery of the RI Work Plan, as discussed during the 15 June 1995 meeting, comments to the enclosures are requested by 27 June 1995 to support contract negotiations.

Please contact Scott Glass at 743-0587 with any comments. Thank you in advance for your input.

Sincerely,

David Cabiness  
Environmental Engineer  
Installation Restoration II  
Division

Encl:

- (1) SOUTHDIV SOW for OU3 Remedial Investigation, Feasibility Study, Proposed Plan and Record of Decision for NIROP Fridley
- (2) Brown & Root Environmental POA for OU3 Remedial Investigation, Feasibility Study, Proposed Plan and Record of Decision for NIROP Fridley
