RE: Naval Industrial Reserve Ordnance Plant, Fridley, MN - 1996 Annual Monitoring Report

Dear Scott:

The United States Environmental Protection Agency (U.S. EPA) acknowledges the Department of the Navy letter dated February 12, 1998. This letter regarding U.S. EPA's written review of the Naval Industrial Reserve Ordnance Plant, Fridley, MN - 1996 Annual Monitoring Report explains that a revised 1996 Annual Monitoring Report will not be reissued but that appropriate changes will be incorporated in the 1997 Annual Monitoring Report. Listed in the Department of the Navy's February 12, 1998 letter are four changes to be incorporated in the 1997 Annual Monitoring Report. U.S. EPA agrees with the incorporation of the four changes listed in the Navy's response letter, and will conduct a review when the 1997 Annual Monitoring Report is submitted.

Sincerely,

A handwritten signature in cursive script that reads "Thomas Bloom".

Remedial Project Manager
