Dear Jeff:

Please find enclosed hard copy of the electronic responses to comments from EPA and MPCA for the subject document.

The electronic responses were sent December 4, 2002 and are identical to those attached to this letter. The attachments include an SOP for data validation that is discussed in the responses to EPA comments. We look forward to working with you to resolve any outstanding issues.

As we noted when we sent electronic responses, it is possible based on the level of information provided with these responses that EPA and MPCA might be able to provide a conditional approval to start the field activity. We will provide any assistance necessary to support this opportunity, if it arises.

Please call me at (412) 921-8216 with any questions.

Sincerely,
