Re: Focused Feasibility Study
For Site 19 – Small Arms Range 910
Naval Station Great Lakes
Great Lakes, Illinois

0971255048 – Lake County
Great Lakes Naval Station
Superfund/Technical

Dear Ms. Van Donsel:

The Illinois Environmental Protection Agency (Illinois EPA or Agency) is in receipt of the Navy's signature page for the *Focused Feasibility Study for Site 19 – Small Arms Range 910, Naval Station Great Lakes, Great Lakes, Illinois*. It was provided via electronic mail on November 6, 2012. The Feasibility Study presents the development and evaluation of remedial alternatives for the remediation for current and hypothetical future land use activities at this site. Illinois EPA reviewed the Draft Final version of this document and provided comments in a letter dated July 9, 2012. The Navy provided responses to those comments and a redline/strikeout version of the revised report for Agency review on September 25, 2012. The Agency has now conducted a review of the Navy's final version of the report and has verified that the proposed revisions have been incorporated into the final document as indicated. Therefore, Illinois EPA can now concur with the contents of the submittal as written. As requested, Agency personnel have signed the appropriate page and are herein returning said page for inclusion in the final document.

If you have any questions regarding anything in this letter or require any additional information, please contact me at (217) 557-8155 or you may contact me via electronic mail at brian.conrath@illinois.gov.

In accordance with Public Act 96-0603, which went into effect on August 24, 2009, any person who knowingly makes a false, fictitious, or fraudulent material statement, orally or in writing, to the Illinois EPA commits a Class 4 felony. A second or subsequent offense after conviction is a Class 3 felony. (415 ILCS 5/44(h))

Sincerely,

Brian A. Conrath
Remedial Project Manager
Federal Facilities Unit
Federal Site Remediation Section
